INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF CONVERGIA DIGITAL EDUCATION PRIVATE LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **CONVERGIA DIGITAL EDUCATION PRIVATE LIMITED** (the "Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025 and its loss, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA's") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, standalone financial statements, and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements, or our knowledge obtained during the course of our audit or otherwise

appears to be materially misstated. The Board of Director's report is not made available to us as at the date of this auditor's report. We have nothing to report in this regard.

Management's Responsibilities for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1) As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our Opinion, proper books of accounts as required by law have been kept by the company so far as it appears from our examination of those books except for the matters stated in the paragraph h(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.

- e) On the Basis of the written representations received from the directors as on March 31, 2025 taken on record by the board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. No dividend declared or paid during the year by the Company, accordingly compliances with section 123 of the Companies Act, 2013 need not to be complied with by the Company.

vi. The reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 is applicable from 1 April 2023. Based on our examination which included test checks, except for the instance mentioned below, the Company has used accounting software for maintaining its books of account, which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software:

- The feature of recording audit trail (edit log) facility was not enabled at the database level to log any direct data changes for the accounting software used for maintaining the books of account.

Further, for the periods where the audit trail (edit log) facility was enabled and operated throughout the year for the respective accounting software, we did not come across any instance of the audit trail feature being tampered with. Further, the audit trails, except as mentioned above, have been preserved by the company as per the statutory requirements for record retention

- 2) As required by the Companies (Auditor's Report) Order, 2020 (the "Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 3) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, In our opinion and to the best of our information and according to the explanations given to us, the no remuneration paid by the Company to its directors during the year. Therefore, reporting required is in accordance with the provisions of section 197 of the Act is not applicable.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Convergia Digital Education Private Limited Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of sub- section 3 of Section 143 of the Companies Act, 2013 (the "Act"))

We have audited the internal financial controls over financial reporting of **CONVERGIA DIGITAL EDUCATION PRIVATE LIMITED** (the "Company") as of March 31, 2025 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Management of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the

J P Chawla & Co. LLP

Chartered Accountants

maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Convergia Digital Education Private Limited of even date)

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

- i. In respect of the Company's Property, Plant and Equipment and Intangible Assets:
 - (a) (1) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets.
 - (2) The Company has maintained proper records showing full particulars of intangible assets.
 - (b) The Company has a program of physical verification of Property, Plant and Equipment and right-of-use assets so to cover all the assets once every three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant and Equipment were due for verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - (c) According to the information and explanation given by the management, there are no immovable properties, included in the property plant and equipment of the company and accordingly the requirements under paragraph 3(i)(c) of the order not applicable to the company.
 - (d) The Company has not revalued any of its Property, Plant and Equipment (including right- of-use assets) and intangible assets during the year.
 - (e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- ii.
 - (a) The inventory has been physically verified by the management during the year. In our opinion, the coverage and the procedures of verification are materially appropriate and all material discrepancies of 10 % or more noticed on physical verification of inventories have been properly dealt with within the books of accounts.
 - (b) The Company has not been sanctioned working capital limits in excess of ₹ 5 crore, in aggregate, at any points of time during the year, from banks or financial institutions on the basis of security of current assets and hence reporting under clause 3(ii)(b) of the Order is not applicable.
- iii. According to the information and explanation given to us, the company has not made any investment, guarantee or security and neither granted any advances in the nature of loan secured or unsecured to companies, firms, Limited Liability Partnerships or other parties. Accordingly, the provision of clause 3(iii)(a) to (f) of the order are not applicable to the company and hence not commented upon.

- iv. In our opinion and according to the information and explanation given to us, there are no loan, investment, guarantees, and securities granted in respect of which provisions of section 185 and 186 of the companies Act 2013 are applicable and hence not commented upon.
- v. The Company has not accepted any deposit from the public or does not have any amount which is deemed to be deposit within the meaning of section 73 to 76 of the Act and the companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the order are not applicable.
- vi. The maintenance of cost records has not been specified by the Central Government under sub-section (1) of section 148 of the Companies Act, 2013 for the business activities carried out by the Company. Hence, reporting under clause 3(vi) of the Order is not applicable to the Company.
- vii. In respect of statutory dues:
 - a) The Company is generally regular in depositing with appropriate authorities undisputed statutory dues including Provident fund, Employees State insurance, Income tax, cess and Other statutory dues applicable to it. The provision relating to excise duty are not applicable to the company.

According to the information and explanation given to us, no undisputed amounts payable in respect of provident fund, employees state insurance, income tax, goods & services tax, cess and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.
 - b) According to the information and explanation given to us, there are no dues of income tax, sales tax, custom duty, value added tax and cess which have not been deposited on account of any dispute.
- viii. According to information and explanation given to us and based on our examination of the books of account, there were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- ix. (a) In our opinion and according to the information and explanations given by the management, the company has not availed any loan facility or borrowing from financial institution or bank. During the year, the company has taken loans from its related party and there is no default in repayment of such loans. The company does not have outstanding borrowings against the government or dues to debenture holders.

(b) The Company has not been declared a willful defaulter by any bank or financial institution or government or any government authority or any lender.

(c) Based on our Audit, The Company has not taken term loan hence clause 3(ix)(c) of this order is not applicable.

(d) On an overall examination of the financial statements of the Company, funds raised on short-term basis, prima facie, have not been used during the year for long-term purposes by the Company.

(e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.

(f) On an overall examination of the financial statements of the Company, The Company has not raised any loans during the year on pledge of securities held in its subsidiaries, Joint Ventures, and Associates companies.

- x. (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.

(b) During the year, the Company has not made any preferential allotment or private placement of any shares or convertible debentures (fully, partially or optionally convertible) and hence reporting under clause 3(x)(b) of the Order is not applicable.

- xi. (a) To the best of our knowledge and according to the information and explanation given to us, no fraud by the Company and no fraud on the Company has been noticed or reported during the year.

(b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.

(c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year. Hence, reporting under clause 3(xi)(c) of the Order is not applicable.

- xii. The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.

- xiii. The provisions of section 177 are not applicable to the company and accordingly reporting under clause xiii in so far as it relates to section 177 of the Act is not applicable to the company and hence not commented upon.

According to the information and explanations given by the management, transactions with the related parties are in compliance with the section 188 of the companies Act, 2013 where applicable and the details have been disclosed in the notes to the Financial Statements, as required by the applicable accounting standards.

- xiv. (a) In our opinion and based on our examination, the Company is not required to have an internal audit system as per the provisions of the Companies Act 2013.

(b) As mentioned in clause 3(xiv)(a), that the Company is not required to have an internal audit system as per provisions of the Companies Act 2013, hence reporting under clause (xiv)(b) of the Order is not applicable.

- xv. In our opinion during the year the Company has not entered into any non-cash transactions with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

- xvi. (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.
- (d) In our opinion and as represented to us, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
- xvii. The Company has incurred cash losses during the financial year is ₹ 17.36 million covered by our audit, there was a cash loss of ₹ 96.86 million in immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditors of the Company during the year and accordingly reporting under clause 3(xviii) of the Order is not applicable.
- xix. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. The provisions of section 135 of the Companies Act are not applicable to the company. Accordingly, reporting under clause 3(xx) of the Order is not applicable for the year.
- xxi. This is report on standalone financial statement of the company. Accordingly, reporting under clause 3(xxi) of the Order is not applicable for the year.

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

1. Corporate information

Convergia Digital Education Private Limited (the Company) is a private company domiciled in India and incorporated under the provisions of the Companies Act, 2013. These are standalone financial statements and, accordingly, these Indian Accounting Standard (Ind AS) financial statements incorporate amounts and disclosures related to the Company only.

The Company is primarily engaged in providing curriculum and digital learning solutions.

2. Significant accounting policies

2.1 Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the financial statements.

The financial statements have been prepared on a historical cost convention, except for certain following assets and liabilities which have been measured at fair value (refer accounting policy regarding financial instruments).

The financial statements are presented in "INR" "Indian Rupees" or "₹", and all values are rounded to the nearest million (₹ 1,000,000), except when otherwise indicated.

2.2 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is classified as current when:

- It is expected to be realised or intended to sell or consumed in normal operating cycle.
- It is held primarily for the purpose of trading
- It is expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.3 Foreign currencies

Functional and presentational currency

The Company's financial statements are presented in INR, which is also the Company's functional currency. Functional currency is the currency of the primary economic environment in which an entity operates and is normally the currency in which the entity primarily generates and expends cash.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of profit or loss.

2.4 Fair value measurement

The Company measures certain financial instruments and equity settled employee share-based payment plan at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External valuers are involved for valuation of significant assets, unquoted financial assets, and significant liabilities, such as valuation of unquoted investments and equity settled employee share-based payment plan. Involvement of external valuers is decided upon annually by the Company's management. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

At each reporting date, the Company's management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Company's accounting policies. For this analysis, the Company's management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Company's management, in conjunction with the Company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- i. Disclosures for valuation methods, significant estimates and assumptions (Note 2.20)

2.5 Revenue from contract with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The specific recognition criteria described below must also be met before revenue is recognised.

Goods and services Tax (GST) is not received by the Company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers are provided in Note 2.20.

The specific recognition criteria described below must also be met before revenue is recognised.

Sale of goods/services

Revenue from sale of curriculum books is recognised at the point in time when control of the asset is transferred to the customer, i.e., at the time of handing over goods to the carrier for transportation.

Revenue from services for providing digital solutions are recognized on delivery of licenses and for providing curriculum solutions on implementation.

Variable consideration

If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Some of the contracts with customer provide a right to customer of cash rebate/discount if payment is cleared within specified due dates.

Rights of return

Certain contracts provide a customer with a right to return the goods within a specified period. The provision for anticipated returns is made primarily on the basis of historical return rates as this method best predicts the amount of variable consideration to which the Company will be entitled. The

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

requirements in Ind AS 115 on constraining estimates of variable consideration are also applied in order to determine the amount of variable consideration that can be included in the transaction price.

Rebates and discounts

The Company provides volume rebates to certain customers once the value of products purchased during the period exceeds a threshold specified in the contract. Rebates are offset against amounts payable by the customer. To estimate the variable consideration for the expected future rebates, the Company applies the most likely amount method for contracts with a single-volume threshold and the expected value method for contracts with more than one volume threshold. The selected method that best predicts the amount of variable consideration is primarily driven by the number of volume thresholds contained in the contract. The Company then applies the requirements on constraining estimates of variable consideration and recognises a refund liability for the expected future rebates.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Interest income

Interest income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable for all financial instruments measured at amortised cost and other interest-bearing financial assets, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit or loss.

2.6 Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities in accordance with the Indian Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in subsidiaries and associates, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.7 Property, plant and equipment

Capital work in progress, plant and equipment are stated at cost, net of accumulated depreciation and/or accumulated impairment losses, if any. Such cost includes the cost of replacing parts of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met.

When significant parts of property, plant and equipment are required to be replaced at intervals, the Company recognises such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the profit or loss as incurred.

Subsequent costs are capitalised on the carrying amount or recognised as a separate asset, as appropriate, only when future economic benefits associated with the item are probable to flow to the Company and cost of the item can be measured reliably.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

Depreciation

Depreciation on property, plant and equipment, other than leasehold improvements, have been provided on pro-rata basis, on the straight line method, using rates determined based on management's technical assessment of useful economic lives of the asset.

Followings are the estimated useful lives of various category of assets used.

Category of assets	Useful life as adopted by management	Useful life as per Schedule II
Office Equipment	5 years	5 years
Furniture & fixture	10 years	10 years
Computer	6/3 years	3 years

Leasehold improvements are amortised over economic useful life or unexpired period of lease whichever is less. Assets costing ₹ 5,000 or less are depreciated entirely in the year of purchase.

The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of plant and machinery, vehicles, computers and building over estimated useful lives which are different from useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

2.8 Intangible assets

Recognition and measurement

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is recognised in the statement of profit or loss when it is incurred.

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

Amortisation and useful lives

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit or loss in the expense category consistent with the function of the intangible assets.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

A summary of the policies applied to the Company's intangible assets is as follows:

Intangible assets	Useful lives	Amortization method used	Internally generated or acquired
Computer software	Finite (5-10 years)	Amortized on straight line basis over the period of useful lives	Acquired
Goodwill on business combination	In-definite	No amortization	Acquired
Copyrights	Finite (10 years)	Amortized on straight line basis over the period of copyright	Acquired
Content development (including In-house contents)	Finite (10 seasons)	Amortized on straight line basis over the period of content	Internally generated

Research and development costs

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognized as an intangible asset when the company can demonstrate all the following:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale. Its intention to complete the asset.

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

- Its ability to use or sell the asset.
- How the asset will generate future economic benefits.
- The availability of adequate resources to complete the development and to use or sell the assets.
- The ability to measure reliably the expenditure attributable to the intangible asset during development.

Following the initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete, and the asset is available for use. It is amortised over the period of expected future benefit. During the period of development, the asset is tested for impairment annually.

2.9 Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of qualifying asset are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they are incurred. Capitalisation of borrowing costs is suspended and charged to the Statement of profit and loss during extended period when active development activity of the qualifying assets is interrupted.

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. It also includes exchanges differences to the extent regarded as an adjustment to the borrowing costs.

2.10 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a Lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

1. Right to use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term.

2. Lease liability

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments).

3. Short term leases and leases of low value assets

The Company applies the short-term lease recognition exemption to its short-term leases of office premises (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

2.11 Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition is accounted for as follows:

- Traded goods: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

2.12 Impairment of non-financial assets

The Company assesses at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an assets or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit and loss.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the assets or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

2.13 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section Revenue from contracts with customers.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments)

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

- Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses (debt instruments)
- Financial assets at fair value through other comprehensive income (FVTOCI) with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss (FVTPL)

Financial assets at amortised cost (debt instruments)

A 'Financial asset' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

Financial assets at fair value through OCI (FVTOCI) (debt instruments)

A "financial asset" is classified as at the FVTOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Financial assets designated at fair value through OCI (equity instruments)

All equity instruments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the group may make an irrevocable election to present subsequent changes in the fair value in other comprehensive income. The group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

If the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Financial assets at FVTPL

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss.

This category includes derivative instruments and listed equity investments which the Company had not irrevocably elected to classify at fair value through OCI. Dividends on listed equity investments are recognised in the statement of profit and loss when the right of payment has been established.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's standalone balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance.
- Financial assets that are measured as at FVTOCI.
- Lease receivables under Ind-AS 116.
- Contract assets and trade receivables under Ind-AS 115.
- Loan commitments which are not measured as at FVTPL.
- Financial guarantee contracts which are not measured as at FVTPL.

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables, and
- All lease receivables resulting from transactions within the scope of Ind AS 116.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events on a financial instrument that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. As on reporting date, company does not have any trade receivable.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the P&L. The balance sheet presentation for various financial instruments is described below:

The balance sheet presentation for various financial instruments is described below: -

- a) For financial assets measured as at amortised cost and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.
- b) Loan commitments and financial guarantee contracts: ECL is presented as a provision in the balance sheet, i.e., as a liability.
- c) Debt instruments measured at FVTOCI: Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

The Company does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables and loans and borrowings including bank overdrafts.

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

Loans and borrowings

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognised less cumulative amortisation.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Re-classification of Financial Assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the unconsolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.14 Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the unconsolidated statement of profit and loss:

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

Compensated absences

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

2.15 Provisions

General

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.16 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose statement of cash flows, cash and cash equivalents consist of cash at bank and in hand and short-term investments with an original maturity of three months or less.

2.17 Earnings Per Share (EPS)

Basic EPS amounts are calculated by dividing the profit or loss for the period attributable to equity shareholders of the company by the weighted average number of equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit or loss attributable to equity shareholders of the company by the weighted average number of equity shares outstanding during the year plus the weighted

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

2.18 Cash dividend

The Company recognises a liability to make cash or non-cash distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

2.19 All amounts disclosed in the financial statements and notes have been rounded off to the nearest millions as per the requirement of Schedule III, unless otherwise stated.

2.20 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements in conformity with the Indian Accounting Standards requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures (including contingent liabilities). The management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

A. Judgement

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

Determining the lease term of contracts with renewal and termination options – Company as lessee

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

For the lease contracts that include extension and termination options, the Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

Revenue from contracts with customers

The Company applied the following judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers:

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

Determining method to estimate variable consideration and assessing the constraint

Certain contracts for the sale of books include cash rebates and volume rebates and a right to return the goods that give rise to variable consideration. In estimating the variable consideration, the Company is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which it will be entitled.

Before including any amount of variable consideration in the transaction price, the Company considers whether the amount of variable consideration is constrained. The Company determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions. In addition, the uncertainty on the variable consideration will be resolved within a short time frame.

B. Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Taxes

Deferred tax assets are recognised to the extent it is probable that taxable profits will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds with term that correspond with the expected term of the defined benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

Further details about gratuity obligations are given in Note 30B.

Convergia Digital Education Private Limited

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

Provision for expected credit losses of trade receivables and contract assets

The Company uses a provision matrix to calculate ECLs for trade receivables and contract assets. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The provision matrix is initially based on the Company's historical observed default rates. The Company will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. For details of allowance for doubtful debts please refer Note 6A.

Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit ('CGU') is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets ('CGU').

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

Estimating variable consideration for right of return, volume rebates and cash rebates

Certain contracts for the sale of books include a right of return, volume rebates and cash rebates that give rise to variable consideration. In estimating the variable consideration, the Company is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which it will be entitled.

The Company estimates variable considerations to be included in the transaction price for the sale of goods with a right of return, volume rebates and cash rebates.

CIN: U80903DL2020PTC369266

Notes to financial statements for the period ended 31 March 2025

(Amounts in ₹ Million, unless otherwise stated)

Leases - Estimating the incremental borrowing rate

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Company estimates the IBR using observable inputs (such as market interest rates) when available.

Exceptional item

Exceptional items refer to items of income or expense within the income statement that are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance for the period. Materiality threshold can be used to select items to be disclosed as exceptional on case-to-case basis. This threshold would be applied separately for standalone as well as consolidated financial statements. However, in case an item qualifies for disclosure in standalone financial statements but not in consolidated financial statements or vice versa, this would need to be evaluated on case-to-case basis the above analysis, mainly following items would be evaluated for disclosure as exceptional items:

- a) Reassessment / Change in life of asset (in case of re-evaluation of business/product, impact of all assets specific to that business/product to be considered for applying the threshold).
- b) Provision for other than temporary diminution in the value of non-current investment.
- c) Write-downs of inventories to net realisable value or of property, plant and equipment to recoverable amount, as well as reversals of such write downs.
- d) In case of other significant item of income or expense, not covered above, the same would be evaluated on a case-to-case basis for disclosure under exceptional items.

Business Combination:

Business combinations are accounted for using the acquisition accounting method as at the date of the acquisition, which is the date at which control is transferred to the Company. The consideration transferred in the acquisition and the identifiable assets acquired and liabilities assumed are recognised at fair values on their acquisition date. Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. The Company recognises any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets. Consideration transferred does not include amounts related to settlement of pre-existing relationships. Such amounts are recognised in the Statement of Profit and Loss.

Transaction costs are expensed as incurred, other than those incurred in relation to the issue of debt or equity securities. Any contingent consideration payable is measured at fair value at the acquisition date. Subsequent changes in the fair value of contingent consideration are recognised in the Statement of Profit and Loss.

6A Trade receivables (Unsecured unless otherwise stated) (Contd...)

iv. The activities in the allowance for doubtful receivables is given below:

Particulars	As at	As at
	31 Mar 2025	31 Mar 2024
Balance at the beginning of the year	21.11	9.29
Addition during the year, net	3.97	11.82
Less: Uncollectable receivables charged against allowance	4.31	-
Balance at the end of the year	20.77	21.11

- v. **Expected credit loss:** Under the Previous GAAP, loss provision for trade receivables was created based on credit risk assessment. Under Ind AS, these provisions are based on assessment of risk of default and timing of collection.
The Company has applied the simplified approach to providing for expected credit losses on trade receivables as described by Ind AS 109, which requires the use of lifetime expected credit loss provision for all trade receivables.
The Company assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Nature and purpose of reserves

Retained earning

Retained earning/(loss) is accumulated surplus/(deficit) of profit and loss earned/(incurred) by the company and a free reserve which can be utilized for business purpose or distributed to the equity share holders without restrictions after complying with the requirements of section 123 of the Companies Act, 2013. This also includes re-measurement gains on defined benefit plans.

Capital Reserve

During the year ended March 31, 2022, the company had acquired business related to "Learnflix" from DS Digital Private Limited and "Mylestone" from Safari Digital Education Initiatives Private Limited through business combination under common control. All the assets acquired and liabilities assumed under this business combination transaction are recorded at book value which resulted into creation of capital reserve of ₹ -401.77 million. This capital reserve is presented under other equity.

Securities Premium

Securities premium comprises of the premium on issue of shares. The reserve is utilised in accordance with the specific provision of the Companies Act, 2013.

Equity Component of Debentures

For purchase consideration of business acquired in FY 2021-22, 2185 and 4831 compulsorily convertible debenture (CCDs) were issued to DS Digital Private Limited and Safari Digital Education Initiatives Private Limited respectively. These CCDs carries interest rate of 0.1% per annum and voting rights on as if converted basis. These CCDs having tenure of 10 years and convertible after one year from the date of allotment at the option of CCD holders. Since the CCDs carries nominal rate of interest and compulsorily convertible into equity shares, the same are represented under other equity. In accordance with the order dated 23-07-2023 of Hon'ble NCLT approving the composite scheme of merger, education business of DS Digital Private Limited and Safari Digital Education Initiatives Private Limited has been merged with the business of S Chand and Company Limited. Accordingly, these CCDs are being held by S Chand and Company Limited after merger.

During the year, 2,000 CCDs, 2,000 CCDs, and 3,016 CCDs were purchased by New Saraswati House (India) Private Limited, Vikas Publishing House Private Limited and Chhaya Prakashani Limited (all fellow subsidiaries of the company) respectively from S Chand and Company Limited on 25-03-2025 through the execution of a Debenture Purchase Agreement.

12 Borrowings

(₹ in million)

Particulars	As At	As At
	31 Mar 2025	31 Mar 2024

	For the year ended 31-Mar-25	For the year ended 31-Mar-24
Re-measurement gains/(losses) on defined benefit plans	0.11	1.75
Tax impact on re-measurement gains/(losses) on defined benefit plans	(0.03)	(0.45)
Total	0.08	1.30

28 Earnings per share

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

Particulars	(₹ in million)	
	For the year ended 31-Mar-25	For the year ended 31-Mar-24
Profit attributable to equity holder of the company for computing basic EPS	(32.12)	(84.10)
	(32.12)	(84.10)
Profit attributable to equity holder of the company for computing diluted EPS		
Net profit as above	(32.12)	(84.10)
Add: Interest on debentures (net of tax)	0.70	0.70
	(31.42)	(83.40)
Weighted average number of equity shares used for computing -		
- Basic EPS	1,14,472	1,10,518
- Diluted EPS*	7,02,74,472	7,02,70,518
Face Value Per Share (in ₹)	10	10
Basic EPS (in ₹)	(280.63)	(760.95)
Diluted EPS (in ₹)	(0.45)	(1.19)

*Company has issued 7016 compulsorily convertible debentures (CCDs) of ₹ 1,00,000/- each on September 30, 2021 as purchase consideration for business purchase in accordance with business transfer agreement dated July 01, 2021 which has dilutive potential as on reporting date. These CCDs shall be convertible into equity shares of Purchaser at any time at the option of debenture holder after completion of 1 (one) year from the date of allotment till the expiry of 10 year from the issuing date and Price of resultant equity shares pursuant to conversion shall be determined at the time, which shall not be earlier than thirty days to the date when the holder of CCD becomes entitled to apply for equity shares, on the basis of valuation report of the registered valuer given not earlier than sixty days of the date when the holder of CCD becomes entitled to apply for equity shares.

31 Fair Values**Fair Value Measurement Hierarchy:**

Set out below, is a comparison by class of the carrying amounts and fair value of the company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

Particulars	As at 31 March 2025				As at 31 March 2024			
	Carrying Amount	Level-1	Level-2	Level-3	Carrying Amount	Level-1	Level-2	Level-3
Financial assets								
At Amortized Cost								
- Cash and cash equivalents	0.75	-	-	-	1.07	-	-	-
- Trade receivables	34.17	-	-	-	79.65	-	-	-
At FVTPL								
- Loans (Security Deposit)	0.46	-	-	0.46	0.41	-	-	0.41
Financial liabilities								
At Amortized Cost								
- Trade payables	86.20	-	-	-	131.42	-	-	-
- Borrowings	119.07	-	-	-	107.98	-	-	-
- Other financial liabilities	2.59	-	-	-	3.69	-	-	-
- Lease Liabilities	1.15	-	-	-	3.19	-	-	-

Valuation Methodology

All financial assets and liabilities are initially recognised and subsequently re-measured at amortised cost except loans. Loans are fair valued through statement of profit and loss Significant unobservable inputs (Level 3).

(This space has been intentionally left blank)

32 Capital & other commitments

The Company does not have any capital and other commitments as on 31 March 2025 (31 March 2024: Nil).

33 Contingent liabilities/assets

The company does not have any contingent liability/assets as at 31 March 2025 (31 March 2024: Nil).

34 Details of dues to micro, small and medium enterprises as defined under the MSMED Act, 2006

The Amount due to Micro and small Enterprises as defined in the "The Micro, Small and Medium Enterprises Development Act, 2006" has been determined to the extent such parties have been identified on the basis of information available with the Company. The disclosures relating to Micro and Small Enterprises as at 31st March 2025 are as under:

(₹ in million)		
Particulars	From 01 April 2024 to 31 March 2025	From 01 April 2023 to 31 March 2024
(i) Principal amount remaining unpaid	3.18	5.79
(ii) Interest due thereon	-	-
(iii) Interest paid by the Company in terms of Section 16 of Micro, Small and Medium Enterprises Development Act, 2006, along with the amount of the payment made to the supplier beyond the appointed day during the year	-	-
(iv) Interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under Micro, Small and Medium Enterprises Development Act, 2006	-	-
(v) Interest accrued and remaining unpaid	-	-
(vi) Further Interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise	-	-
	3.18	5.79

35 Unhedged foreign currency exposure

The company does not have any unhedged foreign currency exposure as at reporting date (March 2024-Nil).

36 Expenditure in foreign currency (accrual basis)

(₹ in million)		
Particulars	FY 2024-25	FY 2023-24
Foreign Travel Expenses	-	0.05
Royalty Expense	0.51	0.53
Total	0.51	0.58

37 Significant Customer

The details of the significant customers having sales aggregating to 10 % of total revenue:-

(₹ in million)		
Particulars	FY 2024-25	FY 2023-24
Net sales (₹ in million) to S Chand and Company Limited	148.76	112.91
% of above to total revenue of the company before provisions	92.51%	67.61%

38 Income surrender or disclosed to Income tax authorities

The Company has not surrendered or disclosed any income during the year in the tax assessments under the Income Tax Act, 1961.

39 Corporate Social Responsibility (CSR)

Section 135 of the Companies Act, 2013 is not applicable to the company, thus company is not required to spent or contribute any amount for Corporate Social Responsibility (CSR) in current year or previous year.

40 Leases

Company as lessee

Set out below are the carrying amounts of right-of-use assets recognised and the movements during the period:

(₹ in million)

	For the year ended 31st March 2025	For the year ended 31st March 2024
As at 01 April	2.70	4.49
Additions	-	-
Deletion	-	-
Lease liability remeasurement impact	-	-
Depreciation expense	(1.79)	(1.79)
As at 31 March	0.91	2.70

Set out below are the carrying amounts of lease liabilities and the movements during the period:

(₹ in million)

	For the year ended 31st March 2025	For the year ended 31st March 2024
As at 01 April	3.19	4.90
Additions	-	-
Deletion	-	-
Accretion of interest	0.27	0.50
Lease liability remeasurement/modification impact	-	-
Payments of lease liability	(2.32)	(2.21)
As at 31 March	1.15	3.19
Current	1.15	2.04
Non-current	-	1.15

* The effective interest rate for lease liabilities is 12%, with maturity in 2025.

The following are the amounts recognised in profit or loss:

(₹ in million)

	For the year ended 31st March 2025	For the year ended 31st March 2024
Depreciation expense of right-of-use assets	1.79	1.79
Interest expense on lease liabilities	0.27	0.50
Expense relating to short-term leases (included in other expenses)	0.85	1.03
Remeasurement impact	-	-
Total amount recognised in profit or loss	2.91	3.32

The company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

The aggregate depreciation on ROU assets has been included under depreciation and amortisation expense in the Statement of Profit and Loss.

(This space has been intentionally left blank)

41 Disclosure related to key financial ratios:

Key financial ratios	Numerator	Denominator	Current period 31 March 2025	Previous period 31 March 2024	% Variance	Reason for variance/Remarks
a. Current ratio	Current assets	Current liabilities	0.47	0.87	-45.37%	During the year, borrowings of ₹58.25 million were reclassified as current borrowings in accordance with the repayment terms. This is the primary reason for the decrease in the current ratio.
b. Debt-equity ratio	Total debt	Shareholder's equity	0.95	0.68	38.34%	The company incurred losses during the year, leading to a reduction in its equity. Additionally, the accumulation of interest has resulted in an increase in borrowings. Consequently, the debt-to-equity ratio has increased.
c. Debt service coverage ratio	Earnings available for debt service*	Debt service**	1.29	(2.15)	160.21%	Due to a reduction in employee benefit expenses and other expenses, the company's losses decreased compared to the previous year, resulting in an improvement in the debt service coverage ratio.
d. Return on equity	Net profits after taxes – Preference dividend	Average shareholder's equity	-22.58%	-68.09%	66.84%	Due to a reduction in employee benefit expenses and other expenses, the company's losses decreased compared to the previous year, resulting in an improvement in the return on equity.
e. Inventory turnover Ratio	Cost of goods sold or sales	Average inventory	0.71	0.68	4.54%	No material variance.
f. Trade receivables turnover ratio	Net credit sales	Average accounts receivable	0.71	0.52	37.08%	Due to better realizations, the trade receivables turnover ratio has improved.
g. Trade payables turnover ratio	Net credit purchases	Average trade payables	0.24	0.19	25.85%	Timely payments to vendors and suppliers have led to a higher trade payables turnover ratio.
h. Net capital turnover ratio	Net sales	Working capital	(2.03)	(9.81)	79.25%	The company's working capital is more negative compared to the previous year. Although the company's sales declined during the year, the increase in the net working capital turnover ratio is due to arithmetic calculation.
i. Net profit ratio	Net profit	Net sales	-27.72%	-67.55%	58.97%	The company's sales decreased by 11%, while other expenses and employee benefit expenses decreased by 47% and 33%, respectively. As a result, the net profit ratio has increased.
j. Return on capital employed	Earning before interest and taxes	Capital employed***	(0.16)	(0.40)	58.31%	Due to a reduction in employee benefit expenses and other expenses, the company's losses decreased compared to the previous year, resulting in an improvement in the return on capital employed.
k. Return on investment #	$\frac{MV(T1) - MV(T0)}{\text{Sum } [C(t)]}$	$\frac{MV(T0) + \text{Sum } [W(t) * C(t)]}{W(t) * C(t)}$	Not applicable	Not applicable	-	Company does not hold any investment any time during the financial year or previous financial year.

*Earning for debt service = Net profit after taxes + Non-cash operating expenses like depreciation and other amortizations + Interest + other adjustments like loss on sale of fixed assets etc.

**Debt service = Interest and lease payments + Principal repayments

***Capital employed = Tangible net worth + Total debt + Deferred tax liability

T1 = End of time period

t = Specific date falling between T1 and T0

MV(T1) = Market Value at T1

W(t) = Weight of the net cash flow (i.e. either net inflow or net outflow) on day 't', calculated as $\frac{T1 - t}{T1}$

T0 = Beginning of time period

C(t) = Cash inflow, cash outflow on specific date

MV(T0) = Market Value at T0

42 Shared Management Services

The holding company renders various administrative and management services to its subsidiary companies to facilitate their day-to-day operations. During the current year, the company has primarily been selling goods and providing services to the holding company; therefore, the holding company has not charged any expenses during the year. In the previous year, the holding company had charged ₹ 1.30 million.

43 Financial Instruments:- Financial risk management objectives and policies

The Company's principal financial liabilities, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include investments in mutual fund, trade and other receivables, security deposits, cash and short-term deposits that derive directly from its operations.

The Company is exposed to market risk and liquidity risk. The Company's senior management oversees the management of these risks and advises on financial risks and the appropriate financial risk governance framework for the Company. The board provides assurance to the stakeholders that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

A. Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices.

Market risk comprises three types of risk:-

- a.) Interest rate risk,
- b.) currency risk and other price risk, such as equity price risk and
- c.) commodity risk.

Financial instruments affected by market risk include loans and borrowings, investments, deposits, advances and derivative financial instruments.

The sensitivity analysis in the following sections relate to the position as at 31st March 2025 and 31st March 2024.

The sensitivity analysis have been prepared on the basis that the amount of net debt, the ratio of floating to fixed interest rates of the debt and derivatives and the proportion of financial instruments in foreign currencies are all constant in place at 31st March 2025.

The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions. The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks.

a. Interest rate risk.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with fixed interest rates.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected, after the impact of hedge accounting. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

		(₹ in million)	
	Increase/ decrease in basis points	Effect on profit before tax	Effect on equity (OCI)
As at 31st March, 2025	+0.5%	(0.60)	-
	-0.5%	0.60	-
As at 31st March, 2024	+0.5%	(0.54)	-
	-0.5%	0.54	-

b. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency). As on reporting date, company does not have unhedged foreign currency.

43 Financial Instruments:- Financial risk management objectives and policies (Continued)**B. Credit Risk**

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is not exposed to any significant credit risk from its operating activities (primarily trade receivables), including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

The Ageing analysis of trade receivables which have significant credit risk as of the reporting date is as follows:

(₹ in million)

Age Bracket	Not Due	0-365 Days	More than 365 days	Total
As at 31st March 2025	-	0.36	20.41	20.77
As at 31st March 2024	-	0.08	21.03	21.11

C. Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, and bank loans. The Company's approach to managing liquidity to ensure, as far as possible, that it will have sufficient liquidity to meet its liability when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company closely monitors its liquidity position and deploys a robust cash management system. The Company manages liquidity risk by maintaining adequate reserves, borrowing liabilities, by continuously monitoring forecast and actual cash flows, profile of financial assets and liabilities. It maintain adequate sources of financing including loans from banks at an optimised cost. The table below provides the details regarding contractual maturities of financial liabilities.

(₹ in million)

	As at 31st March 2025	As at 31st March 2024
On Demand		
- Borrowings	-	-
	-	-
Less than 1 year

Arising from rights of return	2.50	8.90
	6.43	22.45

d) Reconciling the amount of revenue recognised in the statement of profit and loss with the contracted price

(₹ in million)

	1st April 2024 to 31 March 2025	1st April 2023 to 31 March 2024
Revenue as per contracted price	175.38	204.20
Adjustments		
Sales return	10.61	8.46
Discount	3.95	15.65
Revenue from contract with customers	160.82	180.09

Ind AS 115 Revenue from Contracts with Customers (Continued)

Performance obligation

Information about the Company's performance obligations are summarised below:

Sales of goods

The performance obligation is satisfied upon delivery of the goods to the transporter designated by the customer or to the customer whichever is earlier.

The customer has a right to return material to an extent as may be agreed upon with each customer or within the limits as may be determined by the company. The customer is also eligible for discounts based on achievement of revenue targets as may be agreed.

Sales of services

The performance obligation is satisfied upon performing or providing of promised service under the contract to the customer.

45 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position. The primary objective of the company's capital management is to maximise the shareholder value.

The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company's policy is to keep the gearing ratio between 30% to 50%. The Company measures underlying net debt as total liabilities, comprising interest bearing loans and borrowings less cash and cash equivalents. For the purpose of capital management, total capital includes issued equity capital, share premium and all other reserves attributable to the equity holders of the Company, as applicable.

Company's adjusted net debt to equity ratio is as follow:

	(₹ in million)	
	As at 31st March 2025	As at 31st March 2024
Gearing Ratio		
Borrowings (Note 12)	119.07	107.98
Less: cash and cash equivalents (Note 6C)	(0.75)	(1.07)
Adjusted Net debt (A)	118.32	106.91
Equity	125.85	157.89
Total equity (B)	125.85	157.89
Total equity and net debt [C = (A+B)]	244.18	264.80
Gearing Ratio (A/C)	48.46%	40.37%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

46 Impairment of Assets

The company has impaired following assets as the same is not in the condition of use. Written down value of the assets are as follows:

Details of Impaired assets:

(₹ in million)

Asset class	FY 2024-25	FY 2023-24
Furniture & Fixtures	-	0.29
Office Equipment	-	0.04
Total*	-	0.33

*This loss is recognised as expense in other expense in note 26.
